LTTA in Portugal

From the 5th until the 10th of March 2023, all partner schools and organizations met in Forte da Casa, Portugal, to attend the third LTT meeting (Learning, Teaching Training) of our TFSDG project.

Each school sent several teachers and students who were involved in SDGs projects in their own schools. Norwegian, Turkish and Irish students met the Portuguese students from the Forte da Casa school, near Lisbon. They had the opportunity to share the innovative projects conducted in their school in the framework of our project. The aim of the project presentations was also to inspire other students and schools to implement the latter in their own countries!

This was a great sharing and inspiring moment among students, teachers and trainers from across Europe.

Next steps

Partners started to plan the next and final meeting in Ljubljana, Slovenia, where the staff from the project will think of strategies to disseminate the project and its results.

We look forward to the upcoming results of the beautiful connections that have been established between the youth and teaching staff of several schools from all over Europe!
